RIO CHAMA STREAM SYSTEM

Section 7: Rito de Tierra Amarilla

**[PROPOSED] NOTICE OF PROPOSED PARTIAL FINAL JUDGMENT AND DECREE
ON SURFACE WATER IRRIGATION RIGHTS IN THE RITO DE TIERRA
AMARILLA SUBSECTION OF SECTION 7 OF THE RIO CHAMA STREAM SYSTEM**

Parties of record in the Rito de Tierra Amarilla Subsection of Section 7 of the Rio Chama Stream System (“Tierra Amarilla Subsection”) are hereby notified that the State of New Mexico has prepared a *Proposed Partial Final Judgment and Decree on Surface Water Irrigation Rights in the Rito de Tierra Amarilla Subsection of Section 7 of the Rio Chama Stream System* (“proposed Decree”) to be filed in the United States District Court. The Rito de Tierra Amarilla Subsection includes the watershed of the Rito de Tierra Amarilla, a tributary of the Rio Chama.

Orders adjudicating the water rights of defendants in the Tierra Amarilla Subsection for surface water irrigation uses, as against the State of New Mexico, have previously been entered for all subfiles in this section. An *inter se* proceeding in the Tierra Amarilla Subsection is required to provide all persons with water rights in the Tierra Amarilla Subsection the opportunity to file objections to the adjudication of the water rights of other persons in these subfiles. This process will lead to the entry of a Partial Final Judgment and Decree (“Final

Decree”) that will represent the final adjudication of all claims for surface water irrigation rights in the Tierra Amarilla Subsection. The Final Decree will not determine or affect claims to groundwater or stockwatering uses in the Tierra Amarilla Subsection.

If you have water rights in the Tierra Amarilla Subsection that may be affected by any of the provisions of the proposed Decree, you have the right to file *inter se* objections to the adjudication of any of the water rights detailed in the proposed Decree, except for your own rights, and offer evidence to the Court in support of those objections. **Claimants may not now file objections to the previous determination of their own surface water irrigation rights.**

The Court’s previous determination of priority dates and irrigation water requirements by Orders filed on June 7, 2011 (Doc. 10153) and January 18, 2018 (Doc. 11316) respectively, are binding on all claimants, known and unknown, diverting and using water in the Tierra Amarilla Subsection. **Persons using surface or underground water in the Tierra Amarilla Subsection may not now object to the determination of priority dates and irrigation water requirements of the surface water irrigation rights described in the proposed Decree.**

Copies of the proposed Decree with an Addendum that summarizes the water rights adjudicated in subfile orders, and hydrographic survey maps showing the location of all tracts described in the Addendum, are available for inspection at the Office of the Rio Arriba County Clerk in Tierra Amarilla and in Española. Copies are also available for inspection at the Federal District Court in Santa Fe and in Albuquerque, at the UNM School of Law, and at the Office of the State Engineer at the following addresses:

This *inter se* proceeding will be the only opportunity to file objections to the determination of surface water irrigation rights described in the proposed Decree, and **all persons having water rights in the Tierra Amarilla Subsection will be bound by the outcome of the proceedings to resolve *inter se* objections.**

If you do not wish to object to the determination of water rights of other individuals, as described in the proposed Decree and Addendum, you do not need to take any further action. If no *inter se* objections are filed with the Court, you will be bound by the provisions of the proposed Decree. If *inter se* objections are filed by any persons, you may participate in the proceedings to resolve those objections as described below.

A blank form (entitled “*Inter Se* Objection to Surface Water Irrigation Rights”) that may be used for this purpose is included with this notice, and will also be made available to the public at the locations described above and on the Office of the State Engineer website.

If you timely file an *inter se* objection, the Court will notify you of a mandatory scheduling and pretrial conference where you will learn how objections will be heard by the Court. Further procedures for hearing objections to the proposed Decree will be determined at the conference.
